

# OPPORTUNITIES FOR PUBLIC INVOLVEMENT

Appropriate public involvement will be the most important part of this project. The objectives of public involvement are to ensure sufficient interaction with potentially affected interests to achieve project implementation, and to obtain all relevant, appropriate input:

## 1. Project Website (<http://PlanMadison.ulteig.biz>).

- a. A project website has been established and will be updated on an ongoing basis to inform the public about project progress, findings and recommendations
- b. The project website lists contact information and provides an email link to the project leaders

## 2. Open House Meeting.

- a. Present the planning process, comprehensive plan function, and summary of inventory and infrastructure analysis in an open house format for the public.

## 3. Interest Group Meetings.

- a. Present planning process, comprehensive plan function, and summary of inventory and infrastructure analysis to up three key community organizations or interest groups and obtain feedback on issues which should be addressed in the comprehensive plan.

## 4. City Official Workshop.

- a. Workshop on land use planning and regulation to city staff, planning commission and city council members to provide context for the development and implementation of the Comprehensive Plan.
